

# Applied Calculus (MATH 10283-055) in Fall 2013

<b>Room</b> WIN 145	<b>Time</b> TuTh 2–3:20 PM
<b>Instructor</b> Loren Spice	<b>E-mail</b> l.spice@tcu.edu
<b>Office</b> TUC 315	<b>Office hours</b> M 6–7:30 PM (shared) TuTh 1–1:50 PM F 9:30–11 AM (shared) and by appointment
<b>TCU Online</b> tcuglobal.edu	

## Textbooks

- Lial, Hungerford, and Holcomb, *Mathematics with applications* (3rd custom edition, or 11th edition).
- Rittby, *Preparation for Applied Calculus and Applied Calculus extras* (2nd custom edition).

**Attendance** Attendance is **required**. You **must** sign the attendance sheet **each class**, or you may be marked absent. For each exam, if you have attended **all** classes since the previous exam, you will receive 1 bonus point. Official Absences are not counted against your attendance. One un-official absence will be excused per exam.

**Grading** Course components will be weighted as follows.

Homeworks	Quizzes	Midterms	Finals
15%	10%	15% each (45% total)	30%

You can see your current weighted percentage on the course web-page at any time. If you think that a grade has been mis-computed, you **must** talk to me within 1 week of its being recorded.

Your course grade will be determined as follows.

Min. %	Min. Grade	Min. %	Min. Grade	Min. %	Min. Grade
90%	A-	94%	A		
80%	B-	84%	B	87%	B+
70%	C-	74%	C	77%	C+
60%	D-	64%	D	67%	D+

Exam and course grades may be curved. If you have earned less than 60% of the course credit, then you may receive an F.

## Course goals

- Use the language of mathematics to describe real-world phenomena.
- Master the concepts of *derivatives* (rate of change, or slope) and *integrals* (total change, or area).
- Build a calculus toolbox for use in solving both calculation problems and word problems.

We will try to cover most of Chapters 11–12, and some of Chapter 13. Specific topics include the limit definition of the derivative; derivative rules; applications of the derivative; anti-differentiation; and applications of the integral.

**Academic Conduct** You must comply with the University's academic-conduct policies at [http://www.catalog.tcu.edu/current\\_year/undergraduate/1411.htm](http://www.catalog.tcu.edu/current_year/undergraduate/1411.htm), from which the following partial quote is taken.

Any act that violates the spirit of the academic conduct policy is considered academic misconduct. Specific examples include, but are not limited to:

A. **Cheating.** Includes, but is not limited to:

1. Copying from another student's test paper, laboratory report, other report, or computer files and listings.
2. Using in any academic exercise or academic setting, material and/or devices not authorized by the person in charge of the test.
3. Collaborating with or seeking aid from another student during an academic exercise without the permission of the person in charge of the exercise.
4. Knowingly using, buying, selling, stealing, transporting or soliciting in its entirety or in part, the contents of a test or other assignment unauthorized for release.
5. Substituting for another student, or permitting another student to substitute for oneself, in a manner that leads to misrepresentation of either or both students work.

B. **Plagiarism.** The appropriation, theft, purchase or obtaining by any means another's work, and the unacknowledged submission or incorporation of that work as one's own offered for credit. Appropriation includes the quoting or paraphrasing of another's work without giving credit therefore.

C. **Collusion.** The unauthorized collaboration with another in preparing work offered for credit.

D. **Abuse of resource materials.** Mutilating, destroying, concealing or stealing such materials.

E. **Computer misuse.** Unauthorized or illegal use of computer software or hardware through the TCU Computer Center or through any programs; terminals; or freestanding computers owned, leased or operated by TCU or any of its academic units for the purpose of affecting the academic standing of a student.

F. **Fabrication and falsification.** Unauthorized alteration or invention of any information or citation in an academic exercise. Falsification involves altering information for use in any academic exercise. Fabrication involves inventing or counterfeiting information for use in any academic exercise.

G. **Multiple submission.** The submission by the same individual of substantial portions of the same academic work (including oral reports) for credit more than once in the same or another class without authorization.

H. **Complicity in academic misconduct.** Helping another to commit an act of academic misconduct.

I. **Bearing false witness.** Knowingly and falsely accusing another student of academic misconduct.

**Calculators** A graphing, but not a symbolic, calculator is **required** for the class (although it may be **forbidden** for selected problems). For Texas Instruments calculators, the acceptable model numbers are TI-83, TI-84, and TI-85. TI-89, TI-92, and TI-NSpire calculators are **not** allowed on quizzes or exams. Other calculators, and other models, may be accepted, but you **must** check with me first.

**Homeworks** Homeworks will be posted on the course web-page. Homeworks must be handed in to me **in person**. If you are not able to do so, then you may have a friend hand it in, or e-mail me a scanned

copy by the due time. If an official absence will interfere with a due date, please let me know **in advance** so that we can make an appropriate adjustment. **Late** homeworks will not be accepted.

You may work with classmates on the homeworks, but you must write up your own work **independently**. Homeworks are due by the **end** of office hours or the **beginning** of class on the class after they are assigned. The lowest homework grade will be dropped.

You should budget about **10 hours** per week for reviewing notes and doing homework. You **cannot** earn better than a C, regardless of exam scores, without satisfactory homework and quiz grades.

**Quizzes and exams** Quizzes and midterms will be held in class on Thursdays (except that the quiz during Thanksgiving week will be on November 26). The midterms will be on **September 19; October 17; and November 14.**

The lowest quiz grade will be dropped. Missed quizzes **cannot** be made up. In case of an Official Absence, with advance notice, an additional quiz grade may be dropped.

Re-scheduling of exams will be provided **only** in case of an Official Absence; or at my discretion, for extreme, documented reasons. In either case, you must tell me **one week** in advance, or as soon as is reasonably possible.

The final exam will be **Thursday, December 12, 3–5:30 PM**, in a location to be announced. The time is set by the registrar, and **not** subject to change. **Travel plans** are not a sufficient reason to miss a final.

**Disability policy** This course complies with the University disability statement at <http://www.ugradcouncil.tcu.edu/forms/DisabilitiesStatement.doc>, quoted in full below.

Texas Christian University complies with the Americans with Disabilities Act and Section 504 of the Rehabilitation Act of 1973 regarding students with disabilities. Eligible students seeking accommodations should contact the Coordinator of Student Disabilities Services in the Center for Academic Services located in Sadler Hall, 1010. Accommodations are not retroactive, therefore, students should contact the Coordinator as soon as possible in the term for which they are seeking accommodations. Further information can be obtained from the Center for Academic Services, TCU Box 297710, Fort Worth, TX 76129, or at (817) 257-6567.

Adequate time must be allowed to arrange accommodations and accommodations are not retroactive; therefore, students should contact the Coordinator as soon as possible in the academic term for which they are seeking accommodations. Each eligible student is responsible for presenting relevant, verifiable, professional documentation and/or assessment reports to the Coordinator. Guidelines for documentation may be found at [http://www.acs.tcu.edu/disability\\_documentation.asp](http://www.acs.tcu.edu/disability_documentation.asp).

Students with emergency medical information or needing special arrangements in case a building must be evacuated should discuss this information with their instructor/professor as soon as possible.
